CARBINE RESOURCES SECOND QUARTER ACTIVITIES
REPORT FOR THE PERIOD ENDED 30 JUNE 2009

HIGHLIGHTS

- The Company continues to assess project acquisition opportunities with several projects being appraised during the June 09 quarter
- The Red Dam project continues to be reviewed for further exploration activities and a possible commercialisation strategy

1. RED DAM PROJECT (CARBINE 100%)

Carbine Resources Ltd ("Carbine") owns 100% of the Red Dam project, which is situated approximately 45 kilometres north-west of Kalgoorlie, Western Australia. The project contains Indicated Resources of 683,000 tonnes @ 2.44 g/t gold and Inferred Resources of 1,187,000 tonnes @ 2.45 g/t gold for a Total Resource of 147,400oz of gold, when a 1 g/t gold lower cut-off grade is applied.

The Mineral Resources are contained within the northern most area of the project known as the Petrus deposit, where the vast majority of historical and recent exploration drilling has occurred. The mineralisation is open along strike, down dip and has been identified in adjoining geochemically anomalous areas.

The project is under review with the aim of formulating a possible commercialisation strategy, which is likely to include additional exploration activity that will require funding. During the period, Carbine withdrew a Mining Lease Application over a very small parcel of land on the north eastern boundary of its key Mining Lease M16/344 after gaining advice from the relevant Government departments.

2. WEST KALGOORLIE JOINT VENTURE (CARBINE RETAINS GOLD PRODUCTION ROYALTY)

Carbine retains a \$40/oz gold royalty on the first 75,000oz of production and an additional \$3 million cash payment when gold production reaches 140,000oz. The royalty payments relate only to tenements within the former JV agreement that contain published mineral resources as well as the tenement that contains the recently discovered Backflip prospect.

Carbine has lodged caveats over these specified tenements and has no further funding obligations relating to the tenements.

Discussions have been held to derive a satisfactory commercial outcome on the royalty. These discussions are progressing but are not sufficiently advanced to necessitate disclosure.

3. CORPORATE

As at 30 June 2009, Carbine had AUD\$699,000 cash in hand.

Carbine remains committed to securing a project of significant value through either mineral exploration or project acquisition. The Company remains active in the assessment of potential projects.

Carbine has 51,147,545 ordinary shares on issue, all of which are quoted on the ASX. It also has on issue 2,000,000 unlisted options exercisable at \$0.25 expiring 31 December 2009.

Yours faithfully

Rob Brierley
Executive Chairman
