CARBINE RESOURCES QUARTERLY ACTIVITIES
REPORT FOR THE PERIOD ENDED 31 MARCH 2007

HIGHLIGHTS

- Carbine Resources Limited listed on the ASX on 16 March 2007 after completing Initial Public Offering (IPO) which raised \$3 million through the issue of 15 million ordinary shares issued at \$0.20.
- The Company closed the prospectus issue 9 days early after strong demand from both the general public and Allied Gold Limited shareholders.
- Carbine Resource Limited made steady progress towards commencing a drill program at its 100% owned Red Dam gold project. This exploration program is due to commence during the current (June) quarter.

INITIAL PUBLIC OFFERING

Carbine Resources Limited (Carbine) lodged its prospectus with the Australian Securities and Investments Commission (ASIC) on 2 February 2007, with the intent of raising \$3 million through the issue of 15 million ordinary shares at an issue price of \$0.20.

The offer included a priority offer to Allied Gold Limited (Allied Gold) shareholders.

Carbine closed the offer on the morning of 1 March 2007, well ahead of its scheduled closing date of 5pm WST 9 March 2007. Carbine subsequently was admitted to the ASX and listed on Friday, 16 March 2007.

RED DAM SALE AGREEMENT EXECUTED

Carbine entered into an agreement with Allied Gold to acquire the Red Dam gold project tenements on 8 December 2006. The consideration for the project was equivalent to \$809,000 comprising \$5,000 of cash and the issue of 4,020,000 Carbine shares at a deemed issue price of \$0.20 each.

The Red Dam sale agreement was completed on 10 March 2007 after completion of all conditions precedent, which included Plutonic Operations Limited (a subsidiary of Barrick Gold Corporation) not exercising its pre-emptive purchase rights on the Red Dam tenements and Carbine successfully completing a \$3 million capital raising.

PREPARATIONS WELL ADVANCED FOR RED DAM EXPLORATION PROGRAM

Carbine intends to reactivate exploration activities on the Red Dam project, aiming to increase the size of the 141,971 ounce inferred gold resource and to enhance geological confidence. Red Dam is located only 45 kilometres north-west of Kalgoorlie, in a multi-million ounce gold camp and within close proximity to established infrastructure, a skilled workforce and operating processing facilities.

Carbine is well advanced in the planning and permitting stage of the exploration program and anticipates commencement of drilling during the current (June) quarter. The company intends to make an ASX announcement when a drilling commencement date is confirmed.

Coincident with work on Red Dam, Carbine is looking to acquire additional projects on favourable terms. Some progress has been made on assessing project acquisition opportunities, however none have progressed to an advanced stage at this time.

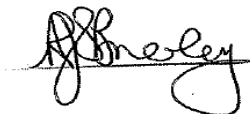

CORPORATE

As at 31 March 2007, Carbine had A\$3.032 million cash in hand.

Carbine has 29,520,001 ordinary shares on issue, with only 16,387,501 currently quoted on the ASX.

Additionally there are 2,000,000 unlisted options exercisable at \$0.25 expiring 31 December 2009.

Yours faithfully

Rob Brierley
Executive Chairman
